Organizational Profile

The Metropolitan Airports Commission (“MAC”) is dedicated to delivering services that align with its purpose: to provide exceptional airport experiences so Minnesota thrives.

Created in 1943 by Minnesota state law, the MAC is a public corporation providing coordinated aviation services throughout the Twin Cities metropolitan area. The MAC operates one of the largest airport systems in the nation, including Minneapolis-St. Paul International Airport (MSP) and six general aviation airports.

Together these airports help drive the region's economy and job growth while providing quick, easy access to destinations around the globe. The MAC strives to consistently exceed the expectations of its stakeholders and showcase Minnesota’s extraordinary culture to the millions of passengers who arrive or depart through MAC airports each year. This includes providing innovative shopping and dining options at MSP, plowing snow from runways, designing and building sustainable facilities, and ensuring the organization's long-term financial strength.

The MAC is governed by a 15-member board of commissioners that establishes the organization’s policies for implementation by senior leadership and staff. The Governor of the State of Minnesota appoints the Chair and 12 commissioners, and the mayors of Minneapolis and Saint Paul also have seats with the option to appoint a surrogate. The MAC and its airports are funded through rents and fees paid by airport users, not by income or property taxes.

Purpose

To provide exceptional airport experiences so Minnesota thrives.

Workforce Composition Analysis

Minnesota Statutes 2023, section 473.143, subdivision 2, (f)

Job Category Review

MAC conducted a Job Category Analysis to determine the percent of protected group employees in each job category. The job category analysis lists job class titles in each Equal Employment Opportunity (EEO) job category at MAC. A job classification is a group of one or more positions with similar duties and responsibilities. These classifications help clarify positions within the class so the same schedules of pay can be applied with equity to all positions in the class that fall under the same, or substantially the same, employment conditions.

Determining Availability

MAC used the United States Census Bureau's EEO Tabulation 2014-2018 American Community Survey (ACS) statistical data for external availability. The feeder job statistics of employees are used for internal availability (refer to Appendix D. Feeder Jobs for details).

These external and internal factors are weighted according to MAC's past hiring patterns and/or future recruitment focus to obtain the final availability (Refer to Appendix E. Determining Availability for details).

Progress Reports

The progress report examines hiring goals established in the prior Affirmative Action Plan. As a part of the agency's monitoring practices, the agency evaluated if it met the hiring goal(s) established in the prior Affirmative Action Plan (refer to [Appendix A. Progress Report](#)).

[Appendix A. Progress Report](#) includes only job categories that have hiring goal(s) established in the prior Affirmative Action Plan and it evaluates if the agency attained the hiring goal(s).

Where the indication of the "Goal Met?" column is:

- "Yes": the agency met the goal established in the prior Affirmative Action Plan.
- "No": the agency did not attain the goal established in the prior Affirmative Action Plan.
- "No Hire/Prom": there were no opportunities in the prior Affirmative Action Plan period.

During the last plan period, MAC expanded its efforts to make community connections to encourage more applicants from diverse backgrounds to seek opportunities here at MAC. As a result, 33 percent of all hires were women, 21% of all hires were people of color, and 4% of all hires were people with disabilities.

Separations Analysis

[Appendix B. Separation Analysis](#) shows the results by separation type and the protected group during the prior affirmative action plan period to evaluate and identify potential action area(s) for retention strategies for the 2024-2026 plan year.

Table 3. Separation Analysis

Lay-off	0	0	0
Total Separations	26.67%	15.63%	<10%

Utilization and Comparison of Employees to Availability

Utilization is an analysis of affirmative action and equal opportunity employment data used to assess the available workforce for a given state.

Underutilization Analysis worksheets are attached in the appendices. Numbers less than 10 are indicated with “<10” in accordance with Minnesota Management and Budget’s guidance on data privacy.

Through the utilization and availability analysis, the agency has determined which job categories are underutilized for females, persons with disabilities, and racial or ethnic minorities in the agency and has set hiring goals for the next two years. Hiring goals are objective and used for making good faith efforts for all aspects of the affirmative action plan. Effective hiring goals are strategic, actionable, and measurable efforts the agency is committed to pursuing and implementing in 2024-2026.

The goals are not quotas, nor do they require protected group status-based hiring preferences. They are aspirational goals so that the agency makes good faith efforts to remove barriers to equal employment opportunity.

The agency used the whole person rule to establish a hiring goal. This means when the actual representation percentage of females, persons with disabilities, and racial or ethnic minorities is less than reasonably would be expected given the workforce participation in the labor market area or reasonable recruitment area and that difference is at least one whole person (more than 1), then a goal is established for that job category.

When a hiring goal for a job category is established, a percentage goal equals to the final availability percentage is calculated for females, persons with disabilities, and racial or ethnic minorities in that job category.

In Appendix F. the Utilization Goals indicates if a job category by protected group is underutilized.

Area(s) in MAC’s workforce that require further monitoring appear in the “Establish Goals?” column as:

- “Yes”: there is underutilization.
- “Monitor”: the agency needs to monitor the job it may be underutilized where employee movement occurs.

In Table 2. Hiring Goals by Job Category and Protected Group, if a protected group in a job category shows “Monitor,” the agency will proactively make good faith efforts to recruit external qualified protected groups. The agency will also train and retain employees in the job category to help prevent underutilization due to an employee move or attrition.

Refer to Appendix F. Utilization-Goals for details for underutilization and hiring goals.

Table 4. 2024-2026 Hiring Goals by Job Category and Protected Group

Goals and Timetables

Minnesota Statutes 2023, section 473.143, subdivision 2, (f)

Goals:

This Affirmative Action Plan shall establish goals for each goal unit by protected group. The goals must be based on a comparison of the composition of the agency or agency subdivision work force with the composition of the relevant civilian labor force in an identified labor market area. If the comparison shows that a goal unit underutilizes a protected group, the agency head shall establish a goal for that group in that goal unit.

Definition: Goal is a broad statement about the long-term expectation of what should happen as a result of your program (the desired result). Serves as the foundation for developing your program objectives.

Timetables:

This Affirmative Action plan also establishes timetables for meeting goals. Timetables must be based on turnover and hire rates within each goal unit in the agency or within each agency subdivision.

Goals and Timetables by Protected Group

Females:

Goal	Time
Increase outreach with women affinity groups to recruit for police cadet program.	Ongoing
Create recruitment brochure and/or marketing materials that include females, minorities and people with disabilities to attract a diverse pool of candidates.	Ongoing
Create and modernize an internship program designed to expand MAC reach into diversity communities and various educational institutes	2025

Persons with Disabilities:

Goal	Time
Create recruitment brochure and/or marketing materials that include females, minorities and people with disabilities to attract a diverse pool of candidates.	Ongoing
Create and modernize an internship program designed to expand MAC reach into diversity communities and various educational institutes.	2025

Racial or Ethnic Minorities:

Goal	Time
Create recruitment brochure and/or marketing materials that include females, minorities and people with disabilities to attract a diverse pool of candidates.	Ongoing
Develop and implement a training program in the Maintenance job category to address hiring challenges.	2026
Create and modernize an internship program designed to expand MAC reach into diversity communities and various educational institutes	2025

Barriers to Achieving Goals and Timetables:

The agency has constraints to address underutilization and areas for monitoring identified in the previous section.

Following the hiring freeze between 2020 and 2022 as a result of the effects of Covid-19, the Metropolitan Airports Commission resumed hiring essential positions and increased its staff population. MAC continued to focus on diversifying its staff during this hiring push. As a result, 33 percent of all hires were women, 21% of all hires were people of color, and 4% of all hires were people with disabilities. MAC further implemented a strategic goal towards diversifying its staff and initiated a dashboard to monitor its progress. Finally, in 2023, MAC initiated the requirement that all hiring managers complete a hire justification form requiring all hiring decisions to be reviewed by the Office of Diversity, Equity and Inclusion.

Over the next two years, MAC anticipates hiring approximately 60 new full-time employees in the areas of professionals, police, fire, office/clerical, skill craft, maintenance, and supervisors and managers. Even with the efforts above, MAC continues to be challenged in attaining hiring goals in several job categories. As a result, barriers include, but are not limited to:

- Limited anticipated number of open positions. MAC's high retention rate leaves a limited number of open positions to fill.
- While MAC has gradually increased its outreach efforts, unanticipated budget deficiencies affects these efforts.
- Unwillingness of employees to self-identify, including individuals with disabilities. This will affect the representation of employees in this protected group.
- The availability of protected class applicants in the area of police, fire, skilled craft, and maintenance.

Moreover, MAC is continuing to develop and research other options to increase workforce diversity in the maintenance job category such as an internal trainee program. MAC will develop a trainee program designed to address underutilization of racial minorities and people with disabilities in this job category. In addition, MAC is implementing an internship program designed to encourage diverse groups to seek career opportunities at MAC.

Recruitment, Retention, and Training

Minnesota Statutes 2023, section 473.143, subdivision 2, (d), (g), and (i)

Recruitment

Regardless of the barriers identified above, MAC will continue to engage in efforts designed to retain, monitor, and improve the diversity of its workforce. In addition to the goals/actions identified below, MAC will also continue to find avenues in diverse communities to promote job opportunities when they become available. MAC has increased its use of vendors and community partners that focus on diverse recruitment efforts, including continuing its partnership with East Side Xchange, Professional Diversity Network, and Summit Academy.

Further, as hiring opportunities present themselves, MAC will continue to post positions with various organizations and news outlets, including but not limited to, the Conference of Minority Transportation Officials, Professionals of Color Facebook page, People of Color Career's website, the St. Paul Voice, and La Voz Latina newspaper. MAC will also attend the Professionals of Career Fair every May.

MAC will continue to do the following:

- Use the EEO tag line on all job postings and advertisements.
- Publish recruitment materials and media depicting individuals representing protected groups.
- Review/evaluate job postings to eliminate non-inclusive language.

Retention

Retaining the talents of our staff is critical to MAC's success. The ability to attract and retain our valued workforce affects our bottom line and is ultimately a measure of our success. Tenure is valued with a commitment to openness for change.

The turnover rate at MAC is less than 5% per year. The best retention strategies are to provide employees with a positive work environment, opportunities to learn about workforce diversity and cultural competence, and opportunities to gain skills to advance their careers.

MAC will take the following actions to improve retention of females, persons with disabilities, and racial or ethnic minorities:

- Analyze exit interview data.
- Identify and eliminate barriers that inhibit career advancement for protected class groups.
- Encourage all new hires to receive applicable trainings for their career development.

- Ensure an inclusive work environment and equal opportunities for all employees.
- Encourage use of the MAC supervisory training program.

- MAC will encourage all employees to increase their skills and job potential through participation in training and educational programs.

Methods of Auditing, Evaluating, and Reporting Program Success

Minnesota Statutes 2023, section 473.143, subdivision 2, (h)

Pre-Employment Review Procedure or Monitoring the Hiring Process

MAC will evaluate its selection process to determine if its requirements unnecessarily screen out a disproportionate number of females, persons with disabilities, and racial or ethnic minorities. The MAC uses the Recruiting and Hiring Process form for every hire to track and review the number of females, persons with disabilities, and racial or ethnic minorities in each stage of the selection process.

- The Human Resources staff will review whether a hiring goal exists for job openings. If there is a goal, a recruitment plan with the hiring manager is developed to attract a diverse applicant pool.
- The strategy for recruitment will include review of minimum job qualifications to ensure requirements are inclusive and the removal of unnecessary barriers. The Affirmative Action/EEO Officer will be privy to all steps in the hiring process and may consult the hiring manager or division leadership regarding hiring qualified candidates that fit the affirmative action need.
- Expanded Certification is an equal opportunity and affirmative action personnel procedure used to ensure qualified females, minorities, and people with disabilities are among the applicants to be considered for positions at MAC. The expanded certification process recognizes that not all attributes of a great candidate is captured on an application in the first stage of the hiring process and allows Human Resources to create a talented and diverse applicant pool. The applicant pool for all positions will be reviewed to determine if expanded certification can be used in a job group.
- The Affirmative Action Officer will evaluate the selection process and determine whether to use an adverse impact analysis if the requirements screen out a disproportionate number of minorities, females or people with disabilities. All hiring managers will be required to complete the Hire Selection form which is reviewed by the Office of Diversity, Equity and Inclusion to (1) ensure diverse candidates are given fair opportunity; and (2) ensure hiring processes are fair and equitable.
- The Affirmative Action Officer and Human Resources staff will also regularly review all physical and mental job requirements to ensure that these requirements do not tend to screen out qualified individuals with disabilities. Staff will also determine whether these requirements are job-related and are consistent with business necessity and the safe performance of the job and will remove any physical or mental requirements that do not meet these criteria. Any job descriptions or requirements changed after review will be made available to hiring and supervising managers.
- Promotions, assignments, appointments, and transfers will be based on job-relevant qualifications and MAC's affirmative action objectives. MAC conducts adverse impact analyses to ensure that females, racial minorities, and employees with disabilities are

promoted at rates substantially similar to those of men, non-minorities, and employees without disabilities. MAC will develop and refine strategies to correct all identified problems in this area, if any.

MAC will engage in various efforts to create opportunity and maximize hiring opportunities for females, racial minorities, and individuals with disabilities. Internships is one tool MAC will use to increase exposure to future employment opportunities with MAC.

Pre-Review Procedure for Layoff Decisions

The Affirmative Action Officer, in conjunction with the Human Resources staff, is responsible for reviewing all pending layoffs to determine their effect on the agency's affirmative action goals and timetables.

If it is determined that there is a disparate impact on protected groups, the agency will document the reasons why the layoff is occurring, such as positions targeted for layoff, applicable personnel policies or collective bargaining agreement provisions, or other relevant reasons. The agency will determine if other alternatives are available to minimize the disparate impact on protected groups.

Other Methods of Program Evaluation

The agency submits the following compliance reports to MMB as part of the efforts to evaluate the agency's affirmative action plan:

- Annual Discrimination Complaint and Personnel Action Report. Internal Complaint Report

The agency also evaluates the Affirmative Action Plan in the following ways:

- Monitors progress toward stated goals by job category
- Analyzes employment activity (hires, promotions, and terminations) by job category to determine if there is disparate impact
- Review hiring data biannually
- Discusses progress with agency leadership on a periodic basis and makes recommendations for improvement

Information obtained through an investigation will be maintained in accordance with the Minnesota Government Data Practices Act and any other applicable law. Those making complaints will be protected from retaliation of any kind because of reporting a suspected incident of discrimination or harassment or cooperating in an investigation.

Employees found, through an investigation, to have engaged in discriminatory behavior or harassment of another individual in the performance of the employee's job will be subject to disciplinary action, up to and including termination.

B. Discrimination, Hostile Work Environment, and Harassment Complaint Procedure

Any individual who believes they have been subjected to or witnessed discrimination, a hostile work environment or harassment based on any protected characteristic including, but not limited to, race, sex, religion, age, national origin, marital status, familial status, sexual orientation, gender identity or disability status is encouraged to file a report. Individuals may report such behavior to the Office of Diversity, Equity and Inclusion, Human Resources Business Partners, Executive Director/Chief Executive Officer, vice presidents, directors, managers or supervisors, or the Commission's Chair. Individuals who wish to report a complaint of discrimination, hostile work environment or harassment are encouraged to use MAC's internal complaint procedure outlined below. Anyone receiving a complaint of this nature is required to report these types of complaints to MAC's Office of Diversity, Equity, and Inclusion (ODEI).

Employee The employee(s) contacts ODEI or management to discuss the complaint. The complaint may be submitted in writing, phone, or in-person. The employee should be prepared to provide the following information:

- a. The name(s) of the person/people involved and date(s) of the alleged behavior(s).
- b. The name(s) of any witnesses.
- c. The alleged discrimination/harassment behaviors, actions or policy/practice violations.
- d. The corrective action suggested.

The following is a link to the complaint form: [Complaint Form](#).

Management Management staff will report any protected class complaints to ODEI. Management is required to assist and cooperate with all investigations initiated by ODEI.

Office of Diversity, Equity, and Inclusion The Director of ODEI or designee shall address all internal complaints of discrimination/harassment/hostile work environment based on a protected class status. All investigations will be conducted in a timely, thorough and impartial manner. An investigation will proceed as discreetly as possible.

Information gathered will be disclosed only as necessary to conduct the investigation, and to others on a business need-to-

know basis. A formal investigation is not always required as ODEI may offer other methods to resolve the complaint such as mediation.

If ODEI determines there is a conflict of interest to process an internal complaint investigation, the complaint may be referred to a neutral party for investigation.

Upon completion of a thorough investigation, ODEI or the neutral party provides a written finding of fact to the Executive Director/Chief Executive Officer or designee determining whether there has or has not been a policy violation.

The ODEI has up to 90 days to complete the investigation from the date the complaint was received. ODEI will make every effort to complete investigation within 90 days, but may extend this timeframe based on department need, availability of staff and witnesses, and availability of data, etc. ODEI will notify the complainant and the subject of complaint in writing, if the investigation will not be completed within 90 days.

The complaint and subject of complaint will be notified when the investigation is closed, and a final determination is made.

ODEI may dismiss the complaint for the following reasons:

1. The allegation is brought in bad faith; the complainant states protected class status was not the reason for the action complained about; or the complaint is blatantly false. Such assessments will be based on facts (a comment by the complainant, for example), rather than circumstantial information.
2. The complainant refuses or is unwilling to cooperate with the investigation.

Chief Executive
Officer

The determination by ODEI is automatically reviewed by the Executive Director/Chief Executive Officer. The Executive Director/Chief Executive Officer determines whether there is evidence to support the Affirmative Action/EEO Officer's

determination of whether or not a policy violation exist.

If after reviewing the report the Executive Director/Chief Executive Officer confirms a policy violation exists, the report will be forwarded to Human Resources and/or Labor Relations for a recommendation on the appropriate disciplinary or corrective action to be administered by management.

Retaliation Complaint Procedure

An employee, or any other person, who has participated in a complaint may also file a complaint that alleges retaliation against an employee for opposing a forbidden practice or for filing a complaint, testifying, or participating in an investigation or a hearing related to a forbidden practice.

Employee

The employee(s) contacts ODEI to discuss the alleged retaliation complaint. The complaint may be submitted in writing, phone, or in-person. The employee should be prepared to provide the following information:

- a. The name(s) of the person/people involved and date(s) of the alleged behavior(s).
- b. The name(s) of any witnesses.
- c. The corrective action suggested.

Office of
Diversity, Equity,
and Inclusion

The ODEI or designee will investigate and make a written determination. Unless appealed, the ODEI's determination shall be considered the final internal resolution of the complaint.

Information gathered will be disclosed only as necessary to conduct the investigation, and to others on a business need-to-know basis. ODEI has up to 10 days to complete the investigation from the date the complaint was received. ODEI will make every effort to complete the investigation within 10 days, but may extend the timeframe based on department need, availability of staff and witnesses, and availability of data, etc. ODEI will notify the complainant and the subject of complaint in writing, if the investigation will not be completed within 10-days.

The complaint and subject of complaint will be notified when the retaliation investigation is closed, and a final determination is made.

Chief Executive
Officer

When an internal complaint alleges retaliation, the complainant or subject of the complaint has 10 calendar days from receipt of the written decision to appeal the ODEI's determination directly to the Executive Director/Chief Executive Officer. The responding or complaining party may submit any evidence and/or information regarding the alleged retaliation as part of the appeal.

The Executive Director/Chief Executive Officer will provide a written decision to party appealing within 30 days following receipt of the appeal. The Executive Director/Chief Executive Officer's determination will be considered the final internal resolution of the complaint.

D. Reasonable Accommodation Policy

Authority

Metropolitan Airports Commission Board of Commissioners, Americans with Disability Act, Pregnancy Workers Fairness Act

Purpose

To establish the process used to request and provide reasonable accommodation

Scope

All employees of the Metropolitan Airports Commission

Definitions

Reasonable Accommodation: a change or adjustment to a job or work environment that permits a qualified applicant or employee with a disability and/or pregnant applicant or worker to participate in the job application process, to perform the essential functions of a job, or to enjoy benefits and privileges of employment equal to those enjoyed by employees without a medical condition.

Policy

In accordance with applicable law, the Metropolitan Airports Commission (MAC) will provide reasonable accommodation to qualified individuals with a disability and pregnant workers that will allow the individual to perform the essential functions of the job and/or to ensure equal benefits of employment. An accommodation will not be provided if it would pose an undue hardship on MAC operations or if there would be a direct impact on the health or safety of the employee.

It is the responsibility of the employee to request an accommodation orally or in writing. MAC may require medical or other documentation regarding the accommodation request. MAC will engage in an interactive process to determine what reasonable accommodation, if any, may be granted. MAC may make other inquiries and take actions in addition to those described in this policy, as allowed under applicable law.

A reasonable accommodation may assist the employee in the performance of the essential functions of the job. Accommodations may include, but are not limited to:

- Making facilities accessible and usable
- A job restructure by reallocation and redistribution
- Altering an essential job function

- Modifying a work schedule
- Obtaining and/or modifying equipment
- Providing assessment modification
- Providing qualified readers and interpreters
- Reassignment to a vacant position
- Permitting the use of accrued paid or unpaid leave
- Providing reserved parking for a person with mobility impairment
- Allowing an employee to provide equipment or devices that MAC is not required to provide

MAC will consider reassignment to a vacant position as a reasonable accommodation under appropriate circumstances; however, MAC is not required to create a new position. MAC may also create a light duty assignment on a temporary basis.

MAC has the discretion to provide reasonable accommodation for an employee whose illness or injury does not constitute a disability under the law.

If a light duty work assignment is created on a temporary basis, this work assignment will reside in the employee's department. If a light duty work assignment cannot be created in the employee's department, MAC may explore light duty work assignments in other MAC departments. If a light duty work assignment is created in another MAC department, the employee may be temporarily assigned to the department. Wages and benefits are subject to change based on the light duty work assignment and may be paid from the employee's original department. A light duty work assignment is temporary and will be reviewed periodically. If MAC is unable to reasonably accommodate the employee's disability, the employee may be subject to discharge in accordance with the Discharge Policy (14-01) for medical reasons. Wages and other benefits may be reduced and/or terminated in accordance with applicable law if an employee refuses available work or a reasonable accommodation. For reasonable accommodation activity associated with Worker's Compensation, refer to the Worker's Compensation Management System Policy in the Policy and Procedures Administration Manual.

Medical documentation must be kept confidential in accordance with applicable laws, regulations, and this policy.

Modifications to Policies and Procedures: MAC will make all reasonable modifications to policies and programs to ensure that people with disabilities have an equal opportunity to enjoy all of its programs, services, and activities. For example, individuals with service animals are welcomed in MAC offices, even where pets are generally prohibited.

Anyone who requires an auxiliary aid or service for effective communication, or a modification of policies or procedures to participate in a program, service, or activity MAC, should contact the Director office of Diversity, Equity and Inclusion Tekia Jefferson at 612- 726-8196 as soon as possible but no later than 48 hours before the scheduled event.

Definitions of Terms Used in This Affirmative Action Plan

Applicant: "Applicant" means a person who has satisfied the minimum requirements for application established by the commissioner of management and budget ([M.S. 43A.02, subd. 4](#)).

Availability: an estimated percentage of qualified females, persons with disabilities, and racial or ethnic minorities in the relevant labor market who are available for positions in a given job category at a state agency. The final availability is determined by considering two factors: the statistics from the outside labor market and the internal state agency workforce for the Affirmative Action Plan year.

Feeder job: staffed positions within the agency that can be promoted and/or transferred into other EEO job categories.

Hiring goal: a numerical objective designed to correct an identified deficiency in the utilization of protected group members. For example, the professional job category has identified underutilization, and the availability is 30%, the goal (or hiring goal) for females in the job category is for 30% of the new hires/rehires and promotions for that Affirmative Action Plan year would be females. Goals/hiring goals should never be implemented as quotas, nor should they be used as criteria in decision-making regarding qualifications.

Job category: a group of jobs that are linked by a common purpose and skill set (or sometimes certificates/educational degrees) and are grounded on the job categories identified by the U.S. Equal Employment Opportunity Commission (EEOC).

Labor market area or Reasonable recruitment area: a geographic area in which an agency is seeking a worker in a particular goal unit and where there is an available supply of workers employed or seeking jobs in that goal unit.

Promotion: the appointment of an employee to a position in a class assigned to a salary range which is two or more steps higher at the maximum than the employee's current job class or which requires an increase of two or more steps to pay the employee at the minimum of the new range.

Protected groups: Females, persons with disabilities, and members of the following Minorities: Black, Hispanic, Asian or Pacific Islander, and American Indian or Alaskan Native ([M.S. 43A.02, subd. 33](#)).

Snapshot: one particular point in time. A snapshot of a workforce is taken at one particular point in time as the basis for Affirmative Action Plan analyses because the workforce numbers are always fluctuating.

Underutilization: the representation of females, persons with disabilities, and racial or ethnic minorities in a specific job category is less than reasonably would be expected given from workforce participation in the labor market area.
